DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The claims are allowed over the cited prior art because none of the references teaches or discloses a voltage regulator having a linear mode voltage regulator connected to a high pass filter circuit, a switch mode voltage regulator connected to a low pass filter circuit, and when activated, the linear mode regulator provides predominately high frequency AC current to an output node and the switch mode regulator provides predominately low frequency AC and DC currents to the output node, and both of the linear and switch mode regulators provide currents to the output node over a medium frequency range between the high and low frequencies, thereby providing the output voltage at the output node.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. J. Han whose telephone number is 571-272-2078. The examiner can normally be reached on Mon-Fri 5:30am-2:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Sherry can be reached on 571-272-2084. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
